Janney Wealth Management Style Portfolios

Asset Allocations to Suit Your Specific Needs

Becoming a successful long-term investor does not happen by chance; it is a result of careful and thoughtful planning. That's why at Janney we adhere to a disciplined, multi-step planning process. Our first step is to define your investment objectives, time horizon, return expectations and risk tolerance through the completion of the Wealth Management Risk Tolerance Questionnaire. Based on your responses, your Financial Consultant will create an investment approach specifically tailored to meet your needs. Janney's Investment Strategy Group has developed eight asset allocation models spread across the risk/return spectrum that will serve as the foundation for your portfolio.

Disclaimer: These strategies represent long-term target weightings and are subject to change. They may not reflect the current allocation of any specific Janney program. These strategies are intended for use based on investment objectives. Investment objectives will vary for each individual client. Past performance does not guarantee future results. There are risks associated with investing, including possible loss of principal. The data contained within this report is for informational purposes only. Information herein has been obtained from sources which we believe to be reliable, but accuracy is not guaranteed.
